Dr. Joe Sansone is a Florida psychotherapist and has been one of the only people to sue to take the CV19 bioweapon vax off the market in his state.

He lost his case despite the fact the CV19 injections have been proven to cause heart disease, autoimmune problems, blood clotting and so-called "turbo-cancers" that are still popping up everywhere. The latest data from the Bureau of Labor Statistics (BLS) shows "US Disabilities Hit an All-Time High of 37 Million In July: UP 23% Since Feb 2021."

Since early 2021, CV19 bioweapon injections caused an additional 7 million people to be permanently disabled, and millions have been killed globally. No matter how high the death and injury numbers get, Sansone still contends the "World is Ignoring Disaster of CV19 Bioweapon Vax." How can this be? Dr. Sansone lays out his case in a new book showing a world run by**"Psychopathic Authoritarianism."** This is not a fluke or an accident. Dr. Sansone says, "On a systemic level, I call it "Psychopathic Authoritarianism," and we are seeing that across the country. With the CV19 shots, the bottom line is these mRNA injections are biological and technological weapons of mass destruction.

The people that deployed this know this. In my case in Florida, the late Dr. Francis Boyle, who gave an affidavit for my case (Boyle wrote the 1989 Bio-Weapons Act), publicly stated the Covid injections were, in fact, offensive biowarfare weapons based on the law he wrote. . .. What we are seeing is true unadulterated evil. That is really what my book is all about. In order to defeat these people, you need to know who you are fighting against. These are not normal people who are running the world right now."

Dr. Sansone says, "The bottom line is most people that we know will have a shortened life span from these injections. Now, I am not saying they are going to die tomorrow, but if you give me a chronic disease or illness . . . I am not going to live as long as I would without it. If that is not going to wake people up, I don't know what will. "Psychopathic Authoritarianism" is a systemic level disease of the society as a whole."

Singer Dolly Parton just passed away, reportedly after a "brief cancer battle." Parton funded research for the CV19 vax. She got a shot on camera and adapted one of her songs to sing to encourage people to get their CV19 vax. She changed the name in her

hit song “Jolene” to “Vaccine.” While she was doing this in 2021, CV19 vax deaths and injuries were already piling up and being covered up by the CDC and FDA.

Parton had what appears to be some sort of turbo cancer that is common after taking the CV19 vax. Was Parton killed by the CV19 injections? We will probably never know. Dr. Sansone says, “Honestly, Dolly Parton was exploited. I think she died due to the CV19 shots. I don’t know that for a fact, but that seems reasonable to assume. I seriously doubt that Dolly Parton would have wanted to injure anybody.

The idea putting these celebrities out there promoting these injections is totally unethical. . .. You have to understand, these people are sadistic. They get off in causing pain in others and humiliating other people. They have fun doing this. They are getting off on giving people chronic diseases and illnesses. Exploiting Dolly Parton and giving her poison while she is promoting poison . . . that’s sadistic. That is evil behavior. I think it is all done on purpose.”

There is more in the 31-miniute interview.
